

Photo Layer/Filter Assignment – Student Handout

1. Choose 1 original photograph taken within the last 2 weeks. Name the picture as *picturename-original*.
2. Make between 2 and 4 layer and/or filter adjustments to the picture. Save the picture as *picturename-modified*.
3. Create 1 slide in Microsoft PowerPoint (see format below) to be added to the PowerPoint below later.

photos.

4. When finished, insert your slide to the **Photography Unit Class PowerPoint.PPTX** located in Mrs. Moore's Flash Drive in the **.../Web Design/Photo unit PowerPoint Directory**. Be sure to place the proper, next consecutive number before your name.

5. Once all slides are inserted, the PowerPoint will be shown to the class and students will attempt to guess the different adjustments made to the
