

NAME _____

Technology Affect Your Career Choices

You are investigating career opportunities. Use CIS to research careers and determine how technology influences those career choices. Answer the following questions for each choice:

1. How will technology assist me in this career?

2. How will the changes in technology affect the future of this career?

3. Using technology, would I be able to work at home or work remotely?

4. Are there opportunities for self-employment?

5. How will the demand for employees in this field increase or decrease because of technology?
